Floor Stripping and Waxing

Floor Stripping, Refinishing and Sealing

Complete floor stripping, buffing, waxing, sealing and refinishing, for vinyl, linoleum, hardwood and natural stone floors

Although vinyl, linoleum and hardwood floors can be extremely durable, they require proper maintenance to preserve their resilience and luster. SparkLEEN can perform floor stripping, refinishing and sealing to restore the look of your floor surface and make them appear as good as new.

Vinyl Floor Stripping, Refinishing and Sealing

Without proper maintenance, vinyl and linoleum floors lose their sheen. These types of floors can develop wax buildup and an unsightly yellow discoloration. This dingy film coupled with deep scratches and abrasions acts like a magnet that attracts even more dirt and grime. SparkLEEN can remove your floor's old sealer, reseal it with a high-quality sealer and buff the surface to a deep shine. This sealer and gloss finish will extend the wear of your floor, reduce marks and scratches and guard against soil penetration and abrasion.

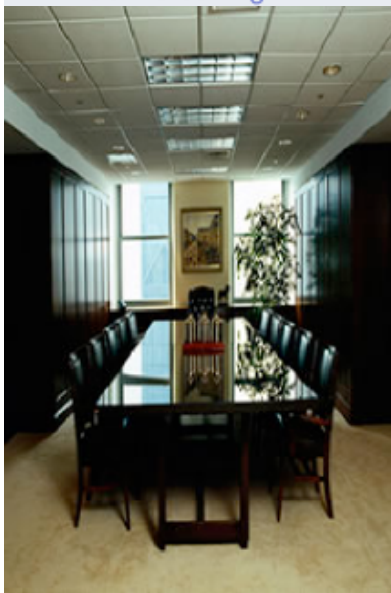

Trust your floor stripping, refinishing and sealing needs to the experts at SparkLEEN.

Have Sparkleen Contact You

A SparkLEEN representative can assist you by providing the exact information you need to make an informed decision to make your business run smoothly and economically.

Please click on the **Request A Service** button below, fill in the fields and select **Submit**. A SparkLEEN representative will contact you shortly. SparkLEEN respects your personal contact information and will keep it confidential.
